Transition Requirement

1. Technical Transition Requirements

- *Migrating existing data to the new platform.*

- *Integrating secure payment gateways.*

- *Configuring the app for iOS/Android and backend servers.*

- *Ensuring API connectivity with third-party delivery services.*

2. Operational Transition Requirements

- Training home cooks on how to use the platform (listing meals, managing orders, updating availability).

- Training cooks on how to evaluate and price products.

- Training customer support and operations teams on the new system.

- Developing Standard Operating Procedures (SOPs) for order handling,quality control, and dispute resolution.

3. Legal & Compliance Requirements

- Obtaining necessary business licenses for operating a food delivery platform.

- Drafting clear contracts for cooks and delivery riders.

- Ensuring compliance with local food safety and hygiene regulations.

4. Marketing & Onboarding Requirements

- Launching an awareness campaign to attract both cooks and customers.

- Creating onboarding materials (videos, guides) for cooks.

- Educating customers on how to use the platform and its benefits over traditional methods.

5. Phasing & Pilot Requirements

- Starting with a limited geographic area before scaling.

- Running a beta test with a small group of trusted cooks and early adopters.

- Gathering feedback and making improvements before full launch
